TO: Commissioner of Patents &amp; Trademarks

PETITION UNDER 37 CFR § 1.102

## SPECIAL STATUS FOR APPLICATIONS RELATING TO BIOTECHNOLOGY FILED BY APPLICANTS WHO ARE SMALL ENTITIES

Sir:

This Petition is filed pursuant to 37 CFR 1.102, to request that application S.N. 09/954, 972, related to biotechnology, filed by George Jackowski et al., a small entity, and entitled "DIAGNOSIS AND TREATMENT OF TYPE-I DIABETES" be granted "special" status.

Applicant herein states that applicant is a small entity, such status being established for S.N. 09/954, 972 by submission of the filing fee for a small entity on Dec. 14, 2001.

Applicant further states that the subject matter of the application is a major asset of the small entity.

Applicant additionally states that the development of the technology of S.N. 09/954, 972 will be significantly impaired if examination of the patent application is delayed.

10/20/2003 NVILLARI 0003/004 Application 0954972 deals with a diagnostic test kit and a

process for diagnosing autoimmune diseases, particularly with relation to Type-I diabetes and precursor conditions thereof, in a patient. Development of the technology to a commercial level requires that an economy of scale be achieved. In order for this to happen, it is incumbent upon applicant to submit evidentiary materials to various manufacturers of diagnostic test kits and to professionals in the area of performance of clinical trials such that they will feel confident in expanding production of the claimed technology to a point at which it becomes sufficiently inexpensive to be put into widespread use. This will require that examination of the application be accelerated so that the likelihood of obtaining patent protection can be ascertained.

Therefore, applicant respectfully requests that this petition for "special" status be granted.

On information and belief, this Petition is submitted prior to mailing of an action on the merits.

The undersigned declares that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code
